Work Experience

A list of my prior technical work experience. Other, non-technical jobs, are listed in the 'Additional Information' section below.

Software Developer

Organisation Name	Barclays
Duration & Date	Jun 2018 - Present
Job Title	Software Developer (Java)
Description	Graduate job. Started a permanent position in MCA (Multi-Channel Applications) developing RESTful Spring web applications in Java. Practices include test-driven development, domain-driven design and the use of technologies such as Gradle, Spring Boot, Junit, Oracle SQL and more. Awarded best newcomer in December 2018.

MEAN Stack Developer

Organisation Name	Urban Sensing Ltd. / Biodata
Duration & Date	1 Year, 2 Mo. May 2017 – Jun 2018
Job Title	MEAN Stack Developer
Description	Year 2 University Summer placement. Working with Vanilla JavaScript, jQuery, the D3.JS JavaScript Library and MongoDB in order to graphically visualise data collected from public vehicles around the world. Working in the MEAN Stack (MongoDB, ExpressJS Framework, AngularJS, NodeJS). I switched from a full-time to a part-time contract when I started my final year at University.

Web Developer

Organisation Name	Ocean82 / Peer Preference
Duration & Date	4 Months. Jun 2016 – Sept 2016
Job Title	Web Developer
Description	Year 1 University Summer placement. I was tasked with designing and creating multiple websites in WordPress. I gained experience with Microsoft Server 2008/2012 and its Internet Information Services (IIS) Manager. I was involved with both front and back end development. This included working with MSSQL, MySQL and PHP for server side and back-end database work. And the use of HTML, CSS, JS and AJAX for client side and front-end web development.
